## Wheelbarrows

01

# Technical Specifications

Our wheelbarrows are engineered for strength and longevity, using 1mm or 1.25mm or 1.5mm or 2mm thick steel sheets for enhanced durability. Each unit is equipped with a bolt assembly system, allowing for easy disassembly and reassembly, making them perfect for export and international shipping. The ergonomic design ensures comfortable handling, while the high-capacity tray is ideal for carrying heavy loads efficiently.

1.25mm thick steel  
1.5mm thick steel  
2mm thick steel

## Why Choose Our Wheelbarrows?

Our wheelbarrows stand out in the market due to their exceptional durability and ease of transport. The bolt system allows for compact packaging, reducing shipping costs and simplifying international logistics. The thick steel construction ensures a long lifespan, even under the most demanding conditions. Whether for construction, gardening, or industrial use, our wheelbarrows are designed to meet the toughest challenges with ease

# Color Options & Customization

We understand that aesthetics can be just as important as functionality. That's why our wheelbarrows are available in a range of vibrant colors including blue, green, yellow, orange, and red. Customize your order to match your brand or personal preference. We also offer custom branding options for bulk orders, allowing you to add your logo or specific design elements.
